

ESTATE GROWN SAUVIGNON BLANC SIERRA FOOTHILLS

Winemaker Notes

Grown in our Estate at an elevation of 1500 ft, this wine was fermented and aged in a concrete egg-shaped tank, developing a well-defined minerality. When you pour it into your glass, you'll be greeted with notes of candied orange zest, fresh wildflowers, and crushed rock. The wine is clean and vital on the palate, with flavors of mandarin, lime, and passion fruit, all balanced out by a creamy texture.
