Winemaker's Note

This wine was crafted for its drinkability and balance between fruit and lively acid qualities, ready as a fresh and crisp wine for warm summer days. Flavors of pink cherries, strawberries, and a hint of rhubarb make this wine irresistible. Dry rosés are gaining momentum among wine consumers as high quality yet approachable wines. Perfect for drinking on its own or with a light brunch, it also pairs well with several dishes, including spicy Thai food and fine sushi.
